

20TH CENTURY PLASTICS, INC.

Dear Friend:

Protecting your floppy disks is an important priority! Scratched or damaged disks can erase hours — even days — of carefully stored documents. Now there's no need to worry . . . you can protect all your disks and organize them for fingertip access in clear vinyl Floppy Disk Pages!

Free Sample!

3-Ring Floppy Disk Pages are punched for storage in standard 3-ring binders and are made of specially formulated vinyl with tiny air pockets to insulate disks from damaging static. To give you an opportunity to see for yourself the quality of these pages, we've enclosed a FREE Sample designed to hold two 5¼" disks. Insert your disks into the handy pockets — they're organized, easy-to-find, and protected from dust and scratches! Each Floppy Disk Page comes with two file cards for recording reference information.

Exclusive Products!

We also offer a number of other exclusive products for your special data storage needs:

- **Standard Easel Binders** — Open to become self-standing easels for convenient display of your Floppy Disk Pages; close to become regular binder size.
- **Mini-Easel Binders and Pages** — For compact viewing and storage of your mini-disks; each page holds one disk and file card.
- **Color-coded Disk Protectors and File Pages** — Choose from handy individual vinyl sleeves or convenient 3-hole punched pages to color-code your files for instant identification.
- **Data Ring Binders** — Multi-ring vinyl binders to hold up to 200 sheets of burst 8½" x 11" printout sheets.
